FRIDAY and SATURDAY—
SPECIAL ATTRACTION

"The Barker"

— with —

Milton Sills - Dorothy Mackail - Betty Compton
Douglas Fairbanks, Jr.

Come and meet the Barker, smooth as marble and twice as hard, but one soft spot—his kid. The boy he wanted to make a better man of than himself—and almost failed—because of jealousy. By all means, see this picture, and you'll know the rest of the story. You've never seen anything like it before—you may never see anything like it again.

MONDAY ONLY—

"Someone to Love"

Featuring

Mary Brian and Charles (Buddy) Rogers

TUESDAY and WEDNESDAY—

"A Man's Man"

— with —

William Haines and Josephine Dunn

Great Stars — Great Picture

THURSDAY ONLY—

"Kid Gloves"

Featuring

Conrad Nagel

Plenty of Action in this Thrilling Picture

SUCCESSFUL GOLF TOURNAMENT HELD

The annual tournament of the
Crows' Nest Golf Association
was concluded here on Monday after-
noon and was voted one of the most
successful and enjoyable yet held, in
spite of the fact that rain came in
torrents from start to finish of the
programme.

During the three or four days a
number of social events were held for
the entertainment of the visitors,
who were here from all points be-
tween Lethbridge and Cranbrook.

The successful winners were as fol-
lows:

Qualifying Round. Men—Best
gross, C. O. Staples, Cranbrook; best
net, S. G. Bannan, Blairmore. Ladies
—Best gross, Mrs. Huntley, Macleod;
best net, Mrs. Huntley.

Mixed Foursomes, Saturday—Mrs.
Menzie and Mr. C. E. Carberry.

Men's Foursomes, Saturday—G. A.
Pasamore and E. Overand.

Men's Handicap, Sunday—G. A.
Vissas, 9 holes.

Ladies' Handicap, Sunday—Mrs. A.
Nicol, 9 holes.

Men's Handicap, Sunday p.m.—W.
W. Scott, 9 holes.

Men's Handicap, Monday—Vic
Williams, 1st; W. Goddard, 2nd, 18
holes.

Ladies' Tombstone—Mrs. Farmer,
9 holes.

Men's Tombstone—W. W. Scott, 18
holes.

Men's Second Flight—Emmerson,
1st; Manchester, 2nd.

Men's First Flight—Davidson, 1st;
Wallis, 2nd.

Men's Championship—J. B. Wilson
1st, J. P. Alexander 2nd.

Ladies' Championship—Miss Sellen
1st, Mrs. J. R. Smith 2nd.

Ladies' First Flight—Mrs. Menzie
1st, Mrs. W. Turner 2nd.

Best Gross for 9 Holes, Men—C. D.
Staples.

Best Gross for 9 Holes, Ladies—
Miss Sellen.

Presentation of prizes took place on
Monday, and most of the visitors re-
turned to their respective homes that
evening.

"THE BARKER" IS COLORFUL PICTURE OF CARNIVAL LIFE

Every once in a while a picture comes
along that takes us completely out of
ourselves and transports us into a
new and unfamiliar environment. For
a time we live the lives of the play-
ers in the story, suffer vicariously and
joy with them in their triumphs.

Such a picture is "The Barker,"
which will be shown at the Orpheum
theatre on Friday and Saturday of
this week. It is a George Fitzmaurice
special production for First Na-
tional, and has Milton Sills in the
title role as the speller in the little
third-rate carnival troupe. Sills has
never given better work to a role. It
is shaded so finely, restrained where
needed and flamboyant where the
characterization demanded expres-
sion.

Dorothy Mackail is co-starred as
the girl Lou. She plays the part with
just the proper degree of abandon-
ment, the pathetic desire for a clean
atmosphere and a real love is ex-
pressed with delicacy and comprehen-
sion.

Betty Compton is admirable as the
Barker's sweetheart, and Douglas
Fairbanks, Jr., is excellent as the son
of the same hardened individual,
whose only soft spot is his love for
his boy.

The trials and tribulations of the
troupe, the internal dissension as a
result of the Barker's son falling in
love with the carnival girl, Lou, whom
he eventually wed, the father's rep-
udiation and final reconciliation—all
these things enter into the romantic,
whimsical and at times humorous pic-
ture.

Provincial elections are taking
place in Saskatchewan today.

WORK OF HIGH SCHOOL TEACHERS APPRECIATED

At the adjourned regular meeting
of the Blairmore Board of School
Trustees, held on Monday night, the
minutes of previous meeting were
adopted and several accounts were
passed for payment.

A number of applications for posi-
tions on the teaching staff for the
fall term were read and filed for lat-
er reference.

The reports of the inspector of
the high school were read and were
most encouraging, to much so that
the board by unanimous resolution
instructed the secretary to write
Principal McPherson and Vice-Prin-
cipal Swinney to the effect that the
board was prepared to renew con-
tracts with them for another year.

The board decided upon purchasing
additional playground equipment to
the extent of the annual appropria-
tion for this purpose, namely \$300.

Principal McPherson was appointed
superintendent for the forthcoming de-
partmental examinations, with Mr.
Swinney and Miss Chrystal as assist-
ants.

ANOTHER OLD TIMER PASSES BEYOND

The death of another of the old-
timers of Blairmore occurred on
Thursday last, when George Edward
Johnson passed away at the age of
69 years, 5 months, 3 days.

Funeral took place on Sunday af-
ternoon, the remains being laid to
rest in the Union cemetery.

CALGARY BOARD OF TRADE HERE NEXT WEDNESDAY

Word has been received by Mr. W.
W. Scott, local Board of Trade sec-
retary, stating that the itinerary of the
Calgary Board of Trade's Good Will
Tour, provides for a stop here on
Wednesday of next week.

Arrangements are being made for
their reception here and Messrs. Gil-
lis, Kerr and Bannan have the ar-
rangements well in hand.

After visiting the mines, the Frank
Slide and other points of interest in
the district, the visitors will be guests
of the local board at a dinner to be
served at the Greenhill Grill at 6 p.m.

The Calgary party will arrive at
Fernie by the morning train and will
be treated to a motor ride through
the mountains to Blairmore by mem-
bers of the Fernie board.

FUNERAL OF WM. WILSON VERY LARGELY ATTENDED

The funeral of William Wilson, who
lost his life in the York Creek mine
of the International Coal & Coke Co.,
took place at Coleman on Saturday
afternoon and was attended by up-
wards of four hundred people, includ-
ing members of the Mine Workers'
Union and the Knights of Pythias.

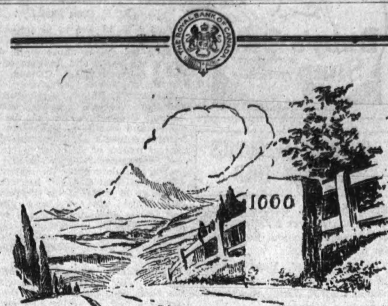

The beautiful last rites of the lat-
ter organization were conducted at
the home and at the graveside, while
the public funeral service was held in
St. Alban's church, conducted by Rev.
A. D. Currie.

Numerous beautiful floral tributes
testified to the popularity of the de-
ceased and the sympathy felt over his
demise.

Members of the K. of P. lodges of
Hillcrest and Blairmore were in at-
tendance.

At a big meeting of the Blairmore
Amateur Athletic Association, held in
the Elks' hall last night, committees
were appointed, programme outlined,
and matters in general were discus-
sed affecting the big July 1st field
day. Without a doubt, the day will
be the biggest in Blairmore's history.

A local guy remarked yesterday
that he was unable to celebrate the
King's birthday, owing to the gov-
ernment vendor store being closed.

WORLD HAPPENINGS BRIEFLY TOLD

Plutarco Calles, former president and minister of war for Mexico during the recent revolt, has retired from politics.

Veterinarians of Manitoba will hold their semi-annual meeting in Brandon, July 5, during the week of the summer exhibition.

It is estimated that 22,000,000 acres will be sown to wheat in Canada this year, or 1,000,000 acres more than a year ago.

The Dominion treasury has \$78,231,100 in gold in the central gold reserves, while according to last bank statement the banks in Canada hold in their vaults in Canada an additional \$40,000,000 in gold.

A flight by Russian aviators from Moscow to New York by way of Alaska this August is being planned by the Soviet airway commission. The plane, called the "Land of the Soviets," will be manned by four men.

Convicted to be hanged at Prince Albert, Frank Carrier, 70-year-old farmer of the Neustein district, was informed that reprieve had been granted and that the sentence had been commuted to life imprisonment.

Manuel Dorras, a member of the crew of the Alaskan Steamship Company liner, "Aequian," who climbed back on the ship from a lifeboat to rescue a "lucky" horse, was the only fatality when the vessel struck a rock and plunged to the bottom of Uyak Bay, near Kodiak Island, Alaska.

The Dominion government has collected in income and business profits taxes \$742,128,182 from the time the tax was first imposed in 1916, up to the end of the last fiscal year. It cost \$19,226,127 to collect these taxes, or 2.6 per cent. This announcement was made from the office of Hon. W. D. Euler, minister of national revenue.

A Dread Scourge

New Methods Needed To Make Headway Against Cancer

Sir Arbuthnot Lane, one of the leading medical authorities of Great Britain, thinks the healing profession must shift its ground completely if it is to make any headway with the fight against cancer.

Undisputed statistics prove that the death rate from cancer constantly rises. It nearly doubled between 1911 and 1926, the British physician says, and multiplied eight times in less than a century. Therefore a complete change of method on the part of those treating this disease seems necessary.

"I believe," said Sir Arbuthnot, "that the only cure for cancer lies in prevention. It never attacks a healthy organ. Accordingly he reasons that advising the healthy how to keep well to be the function of the physician in future. Simple enough if the doctors can do it."

The pessimist (proposing): "Darling, I love you. Will you be my widow?"

"Are you off on pleasure bent?"

"Worse—I'm off on pleasure broke."

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is all, and effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize as many acids as its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The pleasantest way to get the pain de-

Prominent Agriculturists To Meet

Canadian Wide Gatherings Of Seed Growers and Scientists At Winnipeg

(By E. Cora Hind)

June 8 to 15, are to be important days for agriculturists and livestock in Canada for during those eight days the year's work and findings of the Prairie Breeders' Convention, the Canadian Seed Growers' Association, the Canadian Technical Agriculturists, and the Western Canada Society Animal Production, will all be discussed and action taken on such important subjects as the standardization of names of seeds of vegetables and flowers for registration and appraisal and determine the extent to which the Seed Growers Association might go in encouraging the production of field root, vegetable, grain and forage crops suitable for registration. Special interest will centre on the question of the registration of alfalfa and other cross fertilizing crops.

From the cereal breeding committee will come a report which will be the basis of a discussion on the desirability of retaining generation numbers and special attention will be given to whether or not three registered should be eliminated. It is expected that a decision will be arrived at as to the "proper type of Marquis wheat required for registration."

The Canadian Seed Growers will have only two addresses from their own members. President H. G. B. Strang, will call on the famous men generally, and Prof. T. J. Harrison, will speak on his recent trip to Europe, and the types of barley required for the British market.

The Animal Production men are bringing two famous men whose addresses will be shared by all the organizations. These are Dr. F. C. E. Brown, Ph.D. D. Sc., professor of animal genetics, University of Edinburgh, and Dr. W. L. Williams, Professor Emeritus of Veterinary Surgery, Cornell University. The animal production section will also have as a special speaker, Dr. Alfred Savage, B.S.A., V.M., an Animal Pathologist at the Manitoba Agricultural College, who has been working in collaboration with Dr. Williams. The Canadian Technical Agriculturists are bringing Dr. H. B. Hunsbary, Edinburgh, and Dr. R. W. E. Grimes, head of the Department of Agricultural Economics, Kansas Agricultural College, and Dr. J. J. Dineen, Chief of Pomology Agricultural Station, Urbana, Ill. It is doubtful if these gatherings have ever been graced by a more renowned group of specialists.

The Provincial Government of Manitoba and some of the important business bodies of Winnipeg are showing their appreciation of the importance of the gathering by offering luncheons and dinners. Monday night, June 10, the Provincial Government will give a dinner in the H. B. Co. store, when the Minister will preside and Premier Bracken will be the speaker; Tuesday, noon, the Seed Growers will be the guests of the Canadian Wheat Pool; Tuesday night, the guests of the Winnipeg Grain Exchange at the Royal Alexandra Hotel; Wednesday night, the Seed Growers and the Technical Agriculturists will be the dinner guests of the T. Eaton Company, and will be further entertained by a motor drive after dinner.

Thursday, June 13, there will be an excursion by motor to the Dominion Experimental Farm, at Morden, supper there and a return to the city by moonlight. It is hoped that a number of wives will come with their husbands to these meetings, and special entertainment is being provided for them.

The Province of Manitoba and the City of Winnipeg feel deeply honored at the opportunity afforded of entertaining such important bodies, and very happy time during their stay.

Sunspots and Rabbits

The number of pests received by the Hudson's Bay Company from year to year since about 1840 showed marked periodic variation. According to an investigation made at the Dominion Observatory, Ottawa, the number of rabbit pests, on the average, three times greater one year before the minimum of sunspots than at the maximum.

She (in car)—"Don't tell me the car is out of gas!"

He—"All right, then, the gas is out of the car."

parts. You are happy again in five minutes. Don't depend on crude methods. Rely on the best report you've evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any drugstore.

WOMEN'S TENNIS CHAMPION

Canada's First Passenger Train

Left Toronto Station On May 'Six

Seventy-six years ago on May 16th, at 8 o'clock in the morning, the first passenger railway train to run in Canada, pulled out of the old station nearly opposite the Queen's hotel on Front street, Toronto, and made its initial trip to Aurora, Ontario. Up to that time the only form of transportation was the old horse-drawn stage coach and the earlier wagon. The train consisted of a 24-ton engine with 5-foot driving wheels and a 14-ton cylinder, a box car, and a passenger car. Alderman John Harvie was the conductor, and passengers had to purchase their tickets from him on the train. The fare was 81 each way. The journey occupied two hours. The engine and passenger car were named "Lady Elgin" after the wife of the governor-general.

Foundation Of The Farming Industry

Cow Serves Mankind In More Ways Than Any Other Animal

The cow really forms the foundation of the farming industry. Not only does she supply the world with all the milk products, such as butter, cheese, milk, and cream, but almost all her flesh can be eaten, and beef is a staple food of the world. Her hide is used for making leather, and her hair for making with plaster. Glue is made from her hoofs, and gelatin powder from her joints. When everything else is removed her bones are ground into fertilizer in no many ways.

Will Trek To Alberta

Another of the Hutterite Bruder Gemeinde colonies, organized near Freeman, South Dakota, by Russian immigrants about 50 years ago, will leave South Dakota when the Wolf Creek group, numbering about 150, treks to Alberta. An option on their property, comprising 5,400 acres of improved land, has been obtained by A. W. Harper, Minneapolis banker, who plans to dispose of it in tracts of 160 acres each.

How To Measure Height

To measure a tree, set a stick straight up in the ground. Use a plumb line to get it absolutely perpendicular. Measure the shadow, cast, and the shadow cast by the tree. As the shadow of the stick is to the length of the stick, so is the shadow of the tree to its height. Figure it out.

Little Girl To Uncle, whose 'volute' wife has just stopped talking to take breath: "Now, Uncle Henry, you say something!"

"Dadde, can you tell me if Noah had a wife?"

"Certainly—Joan of Arc. Don't ask silly questions."

SUNDAY SCHOOL LESSON

JUNE 9

THE STORY OF THE RECHABITES

Golden Text: "We will drink no wine."—Jeremiah 35:5.

Lesson: Jeremiah 35:1-19.

Devotional Reading: Psalm 107:1-3.

Explanations and Comments

Jeremiah's Test Of The Rechabites, verses 1-5. Among the people who crawled into Jerusalem to escape the dreaded Nebuchadnezzar, was a tribe that excited much curiosity because of its strange manners. The sheik's name was Jasseanah—he whom Jibwah learns. They refused to shelter in the houses or permanent buildings, but pitched their dusky tents in an open space within the city walls. Their record was honorable, and reached far back into the early days of Hebrew history. From the wilderness march of the Exodus the Kenites kept up friendly relations with Israel during the intervening centuries, and it was of them that the Rechabites had sprung (Judges 4:17-24; 1 Sam. 15:6; J. Chron. 2:55). About the time of Elijah, and perhaps through his influence, the leader of one branch of the tribe was Jasseanah, the son of the Rechab. He was dismayed at the appalling corruption of the North, and he tried to lead his people to the spelt of Jassean and Ahab. In his endeavor to save his people from such a fate, this man, afterwards Jibwah, endeavored in his aspiration of idolatry, bound his people under a solemn pledge to drink no wine for ever, and not to build houses, to seed or plant vineyards, but to dwell in tents. F. B. Meyer.

These Rechabites and their staunch adherence to the principles laid down by their ancestor, afforded Jeremiah excellent opportunity for an object lesson. Accordingly, he led them into one of the rooms ranged around the temple courts and bowls full of wine set before them, using the large vessels from which the wine was ever poured into cups. "Drink ye wine," Jeremiah bade them. "It was a severe test of their principles, for he was the prophet himself who bade them drink."

"I count life just a stuff To try the soul's strength on."

—Brown.

"On the shore of almost any lake you can find an allegory of human life. Farthest back from the line where the great opposing forces meet is the end, and there, because it is light, there comes the peace, which yields less readily. And the temple courts and bowls full of wine set before them, using the large vessels from which the wine was ever poured into cups. "Drink ye wine," Jeremiah bade them. "It was a severe test of their principles, for he was the prophet himself who bade them drink."

Recipes For This Week

(By Betty Barclay)

CALIFORNIA MOCK DUCK

1 1/2 pounds flank steak.

1 1/2 cups soft crumbs.

1 cup chopped prunes.

1 egg.

1/2 teaspoon salt.

1/2 teaspoon pepper.

1 teaspoon lard.

Small pieces of suet.

Found steak Brown quickly on both sides in a hot frying pan. Mix other ingredients and place in center of steak. Roll and tie. Lay pieces of suet over the top, place in a roasting pan, cover with hot water. Bake for one hour. Thicken liquid for gravy.

ORANGE AND RHUBARB SAUCE

2 pounds rhubarb.

2 oranges.

1/2 cup sugar.

1/2 cup raisins.

1 tablespoon cold water.

Wash rhubarb, cut into inch pieces, peel oranges, removing membrane with peel, and cut in small pieces, put rhubarb, orange, and sugar in an earthenware or glass baking-dish, and bake about one hour. Dissolve gelatin in cold water, add to rhubarb mixture, and when cool, fill individual pastry shells with sauce, and decorate with whipped cream, forced through pastry bag and rose tube.

Finds Rubber Heart Works

Surgeon Thinks It Will Prove Good Substitute For Natural Organ In Experiments

A cat equipped with a rubber heart lived for several hours, Dr. O. G. Gibbs, who plans to dispose of it in tracts of 160 acres each.

The heart, electrically operated, maintained full action in the feline circulatory system, from which the natural heart had been removed.

Experiments to study the effects of drugs on the system soon wear out the natural heart, Dr. Gibbs said. He expects the rubber organ to prove a good substitute.

The operation to replace the heart in the cat took about five minutes.

He: "Wouldn't you tire of seeing me at breakfast every day?"

She: "Oh, yes, but I don't get up for breakfast."

The speed at which sensations are transmitted along our nerves is about 100 feet a second.

Romantic Story Of Progress

Empire Buyers Are Empire Builders, Making Prosperity For All

Carry the mind's eye back half a century and there commences a most remarkable example of city building on this continent. It is the story of Winnipeg, which has grown from an Indian trading post to the Grain Centre of the world and the Metropolis of the Great West. And what is true of this pioneer city of the plains is true also of the West as a whole, of modern cities like Regina, Saskatoon, Calgary, Edmonton and many other progressive centres.

The morning of the 23rd of August, 1870, marked the closing scene of the Red River Rebellion. Louis Riel, homeless and crazed with the loss of his empire before Col. Wolseley, at the head of the 60th rifles, entered Fort Garry. The arrival of the troops followed confidence among the people of Fort Garry, trade revived, money became plentiful.

The first cabinet of Manitoba was formed on June 12th, 1871. A census in this year showed Manitoba's population to be 10,000. The French half-breeds, 5,737; English half-breeds, 4,083; Whites, 1,668; Indians, 1,000.

Winnipeg's population at this time was about 215 souls. Communication by Red River and Hart overland to St. Paul. No regular stage route was established. Mail came once a week. There was no bank, no office, no lawyer, one doctor, one church, one little newspaper, one policeman and one building. Winnipeg, the great city of the future, was a mere village.

Ever Pure

MAKES PASTRY DELICIOUS—Ensures Success

The Desert Song

—BY—
VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.

"The Desert Song" is a Warner Bros. production of the novel. It is based upon the story by Otto Harlan, Laurence Schwab, Oscar Hammerstein, 2nd, and Frank Marshall.

CHAPTER II.—Continued

Old Hassi nodded. He remembered the night well, remembered the masked figure who had stepped into their camp and shouted defiantly, "Give me twenty of your young men who are not afraid to die! And if the law is wrong, we'll overturn the law!"

"It was only a boy indeed," continued the Red Shadow, "but I dreamed of saving the people of Morocco from injustice. When I returned to Fes, they forced me to resign from the army. I acted as if that blow had made me stupid, almost half-witted. I spent all my time picking wild flowers and I searched high and low for the Red Shadow, never suspecting that he was the stupid, timid boy living right in their midst."

Then complications had arisen. General Fontaine died and the Red Shadow's own father, General Birabeau, was sent out from France to command the post at Fes. He had come with one purpose uppermost in his mind—to wipe out the Red Shadow. How was his son, Pierre, to meet this situation? Could he betray the people he had learned to love? He could not. And yet it was no less difficult to keep his parent from suspecting that his boy was an enemy of the French.

"So I continued to play the fool," he went on, "and I succeeded in deceiving my father. Now because he thinks I am a weakling he hates me. That is bad enough, but to see Margot despise me too! Why, I came to Morocco to show Margot I was a man!"

Back among the tents there came a scurry of excitement. A volley of guttural shouts filled the night as a dozen of the Red Shadow's men dragged to a prisoner, caught by the sentry. He was thrown unceremoniously in front of the fire—five feet of insignificance dressed in bulging, riding breeches fashioned out of enormous checks. It was hard to say which was the most ludicrous, his outlandish clothes, his mustache on his thin face, pale with consternation.

Hassi drew his sword, "Let's kill him! He's a spy! I'm after blood!"

The stranger's squeaky voice protested, "Well, don't look at me. I'm anaemic!"

The menacing face of Hassi threatened him.

"You can't kill me, I'm an American! I'm to spy, I'm only the society correspondent for the Paris Herald. I didn't even mean to come here. Early this morning I went out horseback riding with my friend, Pierre Birabeau. Later he gave me the slip and I thought he had headed this way."

At this point the Red Shadow came forward. He spoke in the Riff's native tongue. What he said meant that the prisoner should be released.

CHAPTER III.

Like most girls who have read story books and believed in them

WHAT WILL IT DO?

Women are saying: "Pinkham's Compound keeps me fit to do my work." "I was nervous and all run down. Now I eat better and sleep better." "It helped my thirteen year old daughter." "I took it before and after my baby was born." "I am gaining every day."

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1788

Margot Bonvalet was beginning to find life a bit disillusioning when she came to actually living it. She had arrived in Fes expecting to find there all the high romance of the sentimental novel. Her Paul would be a dashing hero in his uniform of the Foreign Legion. He would sweep her into his arms and carry her away on horseback, far out into the desert, and there would be a wild courtship under the Moroccan moon. But instead, she had made the disappointing discovery that Paul was first of all the soldier and only the lover. His devotion to military duty made him more of a machine than a dauntless knight.

He left her alone a good share of the time and she found it necessary to rely on inconsequential flirtations with the officers or tedious conversations with General Birabeau's son, Pierre, who worshipped her at a respectful distance but who scarcely qualified as a suitor since Margot regarded him as a mollycoddle. There were no other women at the garrison except Susan, the secretary and sweetheart of Bennie Kid, the Paris Herald reporter, and Azuri, a dark-skinned native girl who was not officially one of the household but who lurked about at all hours when she might glimpse Captain Fontaine.

Margot and Susan were chatting together when Bennie returned from the desert, leaving this half-muttered threat ringing in Fontaine's ear. (To Be Continued.)

"Yes—and what a tough guy," Bennie replied, "if he came riding into camp on a tiger, using a rattlesnake for a whip. Add because he was hungry he ordered a live cow. When it was brought in he took out his sword and cut off a slice for himself."

Susan's eyes were popping. "Raw, Bennie?"

"It was the rawest thing I ever saw done to a cow!" he assured her. Just then Pierre Birabeau appeared in the doorway. Margot hadn't missed him for Pierre always took a nap in the afternoon. To Margot he was a nice boy though some what of a bore. Would she not have been astonished to find that he had had hastily stuffed a scarlet burrhead into the heavily carved chest in his bedroom? Yet he had not been cautious enough, for Azuri, crouched behind a corner like some lithe animal, had seen him.

Pierre ventured timidly toward Margot and handed her a small bouquet. "See Margot, I've got some lovely wild flowers for you!"

The girl looked at him despairingly. "Wild flowers! Oh, Pierre, why don't you go out and fight the Red Shadow? If only you would do one thing to make me proud of you!"

Suddenly she caught sight of Captain Fontaine coming across the court yard. When he entered she greeted him ardently.

"What luck, Paul?"

"Great luck, Margot! I nearly caught the Red Shadow. I found his secret hiding place and I've covered it with a concealed machine gun. Next time he goes there we'll mow him down."

"Bravo!" shouted General Birabeau who had arrived in time to hear Fontaine's confident boast.

"Oh, that's great!" put in Pierre. "But father, wouldn't it be funny if he didn't go there again?"

The General did not bother to answer his son and Pierre who was well accustomed to snubs, resumed silence. His father's interest was primarily in Paul. He had been watching the progress of his romance with Margot and had noted the soldier's neglect and the girl's dissatisfaction. For the sake of his friendship for "Margot's" father, General Birabeau sincerely desired her happiness. He saw a way of promoting it.

"A host of the French Line ships

here tonight, Paul," he told him. "If's just finishing a Mediterranean cruise. You and Margot might take the Bridal Suite and as Governor of the Post, I can marry you."

Margot interrupted. "As the bride, don't you think I deserve to be consulted?"

Paul laughed. "You could hardly be married in that riding habit, Margot!"

Margot tossed her head. "I don't suppose you thought that we two might go riding in the desert together?"

"You see, Paul," General Birabeau told him good humoredly, "Margot hoped you'd pick her up on your horse and carry her across the hot desert sands."

Perhaps Paul's sense of the romantic was partially awakened. At any rate the plan for a hasty marriage appealed to him and he begged General Birabeau to make out his passport. Then he turned to the girl.

"Margot, I'll be back for my answer in five minutes. If it's no, I'll make you say yes!"

"There, Margot, there's romance for you!" remarked the General.

As Paul crossed the inner court, Azuri sneaked up beside him. "He turned on her with a furious contempt."

"Azuri, you can't follow me like this."

She rubbed her sensuous body against him. "Lover, come with me tonight to the hills—and tomorrow morning in your arms, I will whisper to you the name of the Red Shadow!"

"I don't believe you. You don't know."

Azuri twined her arms about his neck and placed her warm dark cheek next to his. "Paul, I cannot give you up to this French woman!"

Fontaine wrenched himself free and taking the girl by the shoulders he threw her roughly to the ground. Her dark eyes flashed jealously as she rose slowly, showing her gleaming white teeth, and sneering:

"Azuri—that name means tiger claws. When she loves she loves for always and when she hates—she hates!"

And Azuri crept out toward the desert, leaving this half-muttered threat ringing in Fontaine's ear. (To Be Continued.)

The Oil For the Athlete.—In rubbing down the athlete will find Dr. Thomas' Eucalyptic Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them so that strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

Canada Honey Exports.—Of the total honey production in Canada last year of 22,489,000 pounds valued at \$2,785,467, 1,246,017 pounds valued at \$104,200 were exported. The Netherlands was the biggest buyer, taking \$17,870 pounds and the British Isles were next with \$19,818 pounds.

Keep Minard's in the Medicine chest.

Would Out Expense.—A London tailor has demonstrated a reversible coat, which can be worn inside out. Two different cuts of clothes may thus be worn at once, to be changed at will. Both sides are said to look like well tailored garments.

Radio Difficult To Transmit In Forest.

Mysterious Barriers Exist Largely When Trees Are Sappy.

When radio messages are received with comparative ease in the Arctic, and the long and short waves of electrically energized ether are received in mines deep underground, it is startling to find that difficulty is encountered in establishing radio communication in the forest. There are mysterious barriers that exist in the forest, the transmission of radio energy being affected to an unknown extent by what is called the absorption of trees. This seems to occur in spring, summer, and fall when the trees are sappy. With all the advances made by radio, it is still necessary for the protectors of our forests to use the telegraph and telephone.

Aspirin is a Trademark Registered in Canada

Danish Dairy Exhibition

National Show This Year Had Largest Display Ever Held

At the Danish national dairy exhibition held in Copenhagen recently, there were exhibits of butter from no less than 1,387 dairies, and cheese from 743 dairies.

It was the largest display of its kind ever held in Denmark, and it is doubtful whether any other country could have produced such a numerous collection of samples of butter of such uniform quality despite the fact that they were made in so many hundreds of different dairies. Besides butter and cheese the exhibition also comprised condensed milk, sugar cream, milk powder, ice cream, dairy preparations and dairy machinery.

The quality marks given to the butter by the adjudicators showed a high degree of uniformity. From 90 to 95 per cent. of the butter exhibits were acknowledged as being fully up to the requisite standard, and the cheese exhibits were also characterized by the experts as most satisfactory.

Visitors to the exhibition came from no less than 24 foreign countries.

MADE HER BABY PLUMP AND WELL

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zephier Lavoie, Three Rivers, Que., writes:—

"Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do so."

"Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and fevers, expel worms, allay teething pains and promote healthful sleep. They are guaranteed to be free from any drug and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Little Helps For This Week

"Godliness with contentment is great gain."—1 Timothy vi. 8.

My crown is in my heart, not on my head.

Not decked with diamonds and Indian stones;

Not to be seen; my crown is called Content.—Shakespeare.

A contented mind is always joyful; but joy like this is but religion. The rich and poor alike, having contentment, enjoy perpetual rest.

—Buddha.

I am always contented with that which happens, for I think that what God chooses is better than what I choose.—Epictetus.

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

Donald MacMillan To Head Expedition To Northern Lands

Donald B. MacMillan, explorer in an address has briefly outlined plans for his projected expedition into the Arctic this summer.

The schooner Bowdoin will leave from Wisconsin Harbor, June 22.

The summer will be devoted to exploration of unknown spots in Labrador and Baffin Land. He expects to return in September.

The party will work among the Nascope Indians, whose hostility to white men was overcome on a previous expedition, when they were assisted through a period of famine. Plans include a study of the great ice cap in Baffin Land, of which little is known, Commander MacMillan said.

A Strange Cargo

One of the strangest cargoes ever to be shipped on an aeroplane arrived at Croydon airport recently. When the large air freighter pulled up at the hangars, the load inside proved to be twelve monkeys, and a baby bear.

They were shipped to a private animal dealer in London, from the East Indies, the distance from Amsterdam to Croydon being covered in the air freighter.

MUSHROOMS FOR SALE

Now available at 25c weekly boxes. Mushrooms for sale in cellar or other warm place. Delivery to our nearest branch. Light pleasant work for either sex. Illustrated booklet and catalogue, for sample.

DOUGLASS MUSHROOM CO. TORONTO

Actual Thickness

Ideal--Wherever alterations are required

In many a fine, old-fashioned farm house there are rooms much larger than people today consider necessary. This available space can be partitioned off into extra rooms with very little work and at surprisingly small cost by the use of Gyproc Fireproof Wallboard. And the Gyproc walls and ceilings of the new rooms will match the older walls—no matter how solid they are—for seasoned rigidity, good looks and permanence.

Gyproc is the perfect building material for all modern farm construction—for homes, barns, poultry houses, granaries and garages. It is pure rock—cannot warp, shrink or burn. With the use of joint filler and tape its sections meet in a tight, flush joint that insures a flat, smooth surface and takes any decoration.

Canada Gypsum and Alabaster, Limited

Head Office: Paris, Canada

Branches: Montreal, Toronto, Windsor, Winnipeg, Vancouver

GYPROC Fireproof Wallboard

Beautiful decorative effects can be obtained by applying Alabaster, joint, paper or paint right over Gyproc walls and ceilings, for example.

Brood, ceiling-high sections of Gyproc can be nailed directly to joists and walling—no extra construction with a minimum of labor.

CIRCUS COMING

Youngsters from 7 to 77 years of age are counting the days until Tuesday, June the 11th, when the Al. G. Barnes 5-Ring Wild Animal Circus is coming to Blairmore with train loads of elephants, lions, horses and everything that goes to make up a real tented amusement enterprise.

Tusko, billed as "the largest creature that walks the earth," is the biggest feature in every respect, and stands a foot higher than the famous Jumbo. Lotus, performing hippo, rhinoceros and the hippodrome track and scores of fierce, jungle-bred lions, tigers and leopards are exhibited in steel arenas by such fearless trainers as Herr Louis Roth, Captain John Myers and Miss Bobbie Todd.

"Aladdin and the Parade of Gold" is the title of the colorful spectacle that will open the two performances here, and 1080 people and 1200 educated wild animals take part in the most beautifully arrayed pageant-play ever seen under the white tops in America. Max Sabel and his Liberty horses, Klinkhardt's equestrian midgits, the Letourneaus, daring aerial artists, one hundred girl riders and high school horses—these are just a few of the features that will thrill you.

TO THE JUNE BRIDES

This month, June, is the month of brides—and, we almost forgot bridegrooms. If we had thought about the matter earlier, we would have printed a series of confidential chats, to warn both brides and grooms of the many pitfalls which should be avoided in the first seven years of married life—but, having ignored such advice ourselves in those impetuous days when we were single, we realize that any advice we could have given would have fallen on barren ground.

Married life is a series of adjustments: two temperaments, quite often diametrically opposed, to be adapted if marriage is to be a success. Two individuals who have largely lived their own lives now compelled to take cognizance of each other's likes and dislikes. Two blissful lovers, enjoying the height of romance, building dreamy castles in the air.

We could enter into learned discussions on the psychological effects of marriage; the failure of marriage as a social institution; the economic problems of double harness and other

important topics, but instead—we just say that the dream castles of the June brides to be—and, we almost forgot—the bridegrooms-to-be come true.

The problems that face young married couples can easily be solved so long as the castles in the air don't fade away. The only advice we offer is to hang on to the castles—they are priceless even if they are never brought to earth.—Ex.

SUCCESSFUL PUPILS

The following pupils of Miss K. McKrill, R.A.M., were successful in passing the examination of the Associated Board of R.A.M. and R.C.M.

Primary Division—Joy Donkin (hon. mention), Lily Rumsey, Leslie Rumsey, Man Short, Albert Thomason.

Elementary Division—Doro-hy Costick, Vearnellia Packer, Lillia Packer.

Lower Division—William Borrows, Marion Burrell, Hilda Clifford, Betty Greig (hon. mention), Leona McDonald, Virginia Olson.

Higher Division—Douglas Bevan, Margaret McDonald.

Rudiments of Music—Marion Burrell.

MINERS' EXAMINATIONS

Examinations for first and second-class certificates in mining are being held this week in the Lodge hall, Blairmore, commencing on Wednesday morning and likely to conclude to-morrow evening. The presiding examiners are: John A. McLeod, manager, Coleman; Enoch Williams, miner, Blairmore; and Moses Johnson, the mines branch, Blairmore. Candidates are as follows:

First-class—Marc Piard, Bellevue; Emrys Rolf, Hillcrest; Lake Lindoe, James Kellock and W. J. Hibbert, Coleman.

Second-class—Evan H. Morgan, Coleman, and Pete A. Speager, Crows' Nest.

GOSSIPING EVIL HELD HERITAGE TO MONKEYS

CHICAGO, June 1.—The genesis of gossip was the jungle, Dr. Edward Amherst Ott has informed the Executive's Club: "A case of the monkey chattering about the lion because he isn't big enough to fight him physically."

Dr. Ott, president of the educational extension society, believes gossip to be heritage to man from jungle ancestors.

"Men delight in spreading evil tales because they haven't the courage to use poison gas or firearms on their enemies," he said. "It's the birthmark left by the monkeys."

Circus Man (hunting for runaway elephant): "Have you seen a strange animal about here?"

Farmer: "Oh, have. There's been a injun rubber ball eatin' my carrots wid 'is tail."

WCMAN ANIMAL TRAINER LOVES HER PETS

Miss Bobbie Todd, principal woman animal trainer with the Al. G. Barnes Circus, and her pet leopard "Spot" are great pals, and next to a good "ed," "Spot" loves to take a spin down the boulevard with a pretty girl at the wheel of a sport model roadster. "Spot" is just one of the 1200 animal actors in the world's largest wild animal show, which comes to Blairmore on Tuesday, June 11th, and will be seen in the merveur and grand opening spectacle, "Aladdin and the Parade of Gold," edition 1929. Scores of fierce jungle bred lions, tigers and leopards are exhibited in a steel arena by fearless trainers, both men and women. Lotus, the lovest hippo, and Tusko, the largest elephant on earth, a foot taller than Jumbo, are features of the big show this year.

REGULATIONS FOR BASE-BALL CHALLENGE TROPHIES

Trophies shall be perpetual challenge trophies to be competed for only by members of the Alberta Amateur Baseball Association under the jurisdiction of the association.

All challenges must be sent in writing, in duplicate, to E. D. Batrman, honorary secretary of the Alberta Amateur Baseball Association. Challenges will be dealt with in rotation of receipt each season. The playing season shall be from 1st July to Labor Day annually.

Any challenging club which fails to appear on date specified for game shall forfeit all right to play for trophy during the current season.

Games shall be played on the ground of the defending club. The first game for each trophy shall be played on ground-of club first filing a challenge.

Home team will be allowed \$25.00 for advertising and ground expenses; 5% of gross receipts are to be remitted to Alberta Amateur Baseball Association, balance of proceeds from games are to be divided 50-50 between competing clubs.

Each series shall consist of one game; in case of a game it shall be replayed within three (3) days. President of the Alberta Amateur Baseball Association shall arrange game should competing teams fail to agree, but shall not require any team to defend any trophy sooner than seven (7) days after either winning or defending it.

In event of defending club of any trophy becoming engaged in championship play-offs they shall have the right to relinquish defence of trophy, but when such championship engagements are concluded such club shall automatically be placed at the head of the list of challengers for the trophy concerned.

The association will insure the trophies against fire and theft. For purpose of recording games the association will furnish a score book which shall accompany the trophies and be carried in the case containing the trophy. The winning club shall mail to the secretary of the association a copy of the score of the game and 5% of the gross receipts and such other information as the association may deem necessary.

All players used by clubs competing for these trophies must be registered with their club with the Alber-

Amateur Baseball Association.

The association shall receive any club to whom the trophy is turned over to furnish a bond in the sum of \$100.00 in favor of the association, conditioned upon the return of the trophy in good condition when requested for same by the association.

The association shall cause to be placed upon the base of trophies the names of the winning clubs in each season.

ELKS' CARNIVAL-BAZAAR TO BE BEST EVER HELD

Everything is now set for the Elks' fifth annual carnival-bazaar, which will be held in the Arena on June 23, 29 and July 1, and which promises to be the best yet staged by the local lodge.

Have you got your tickets for the Chesterfield set, Electric Radio, Electric Orthophonic?

New goods this year include ladies' silk pyjamas, hand bags and kimono; large rabbits, dolls, electric fans, hams, bacon, yatch dogs—and don't forget to visit the all-Scotch booth.

Dancing each night in the arena, music by the Knights of Rhythm.

A dance will be held in the Union hall at Frank on the night of Monday, July 1st, the proceeds of which will go toward a fund for the purchase of school playground equipment.

ONE OF THE 57 VARIETIES

BOYS' AND GIRLS' SWINE CLUBS

For the past eight years Boys' and Girls' Swine Clubs, organized through the co-operation of the Dominion and Provincial Departments of Agriculture, have taught thousands of boys and girls the most approved methods of swine feeding and management and have been a practical demonstration to their districts in the production of the Canadian bacon hog.

Believing in the value of such education for farm boys and girls, the Canadian Pacific Railway has consistently supported this work, and will again offer as prize a handsome cup to the Club from along its lines standing highest in each of the provincial competitions for Manitoba, Saskatchewan, Alberta and British Columbia.

In addition, these winning teams will be taken to the 1929 Royal Agricultural Winter Fair at Toronto next November as guests of the Canadian Pacific Railway.

The four cups will be competed for annually, but if a cup is won three times by any one Club it will become the property of that Club. The members of the winning team in each province will be awarded handsome medals each year, which will be retained permanently by them.

Canada's bacon now stands second to none in quality on the markets of the world. Boys' and Girls' Swine Clubs, through the influence they present, can do a large part in assisting to stabilize supplies and to still further consolidate the bacon type hog which is so essential if Canada is to maintain and improve her present standards of quality.

Each team must consist of two boys, or a brother and sister, or two girls between the ages of 14 and 21 years, September 1st, 1929.

All rules and regulations governing the swine clubs in the various Western Provinces must be observed.

All teams competing must take part in a judging competition and give a demonstration at a central point (or points) as may be decided by the committee in charge. The competition will be held at or near the time the carload lot of hogs raised by the Club are marketed.

District winners shall be determined on the following basis: 40% for general efficiency in swine raising, 20% on judging hogs, 20% on the quality of the two hogs exhibited, and 20% on a bacon hog demonstration which shall occupy not less than 20 minutes and not more than 30 minutes.

Teams selected shall be granted transportation to the point in each province where the provincial competition is to be held.

Previous winners of the trip to Toronto Royal Show are debarred from future competition.

WHO! BACK UP!

Backward, turn backward, oh time in your flight.

Make me a girl again, just for tonight.

Give me the long golden curls that were worn

Back in the days before tresses were shorn.

Give me the skirts that brought many a laugh,

When boisterous winds flipped them over the calf.

Give me the roses our cheeks sported then.

Without touchings up from the old Five-and-Ten.

Give me the petticoats; give me the lace.

Give me the modesty; give me the grace;

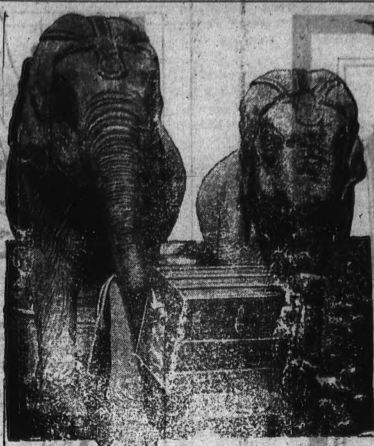

Give me the power to blush when I'm kissed;

Give me the things that I lately have missed.

I have the gimmies. Oh, time in your flight,

Give me my girlhood, please—just for tonight—EX.

Don't forget the Elks' Attney Dance in the Arena after the circus next Tuesday evening.

A STUDY IN TRUNKS

Everybody works with the circus, and on late arrival days the elephants pictured here are assisting the working men in carrying in the performers' trunks. Al G. Barnes Circus, which exhibits in Blairmore on Tuesday, June 11th, has many elephant actors, and an entire new programme of stunts has been taught the pachyderms since their last visit to Blairmore. Six new members of the elephant herd have been received from India and put through a post graduate course at the circus winter quarters. There are now in America 132 elephants, of which the Al G. Barnes Circus has a generous share.

THE ROMANCE OF

THE RURAL PAPER

Though, no doubt, life may often seem a state thing to him, as it does to all of us at some time or another, the editor of the small town newspaper, whether he realizes it or not, is really an Empire builder of no small order. When city people scan the news items in a country weekly, they are sometimes tempted to smile at the importance assumed by items which seem of no great moment. But the fact that some well-known citizen suffered a broken leg when his horse ran away with him—and every citizen is well-known in a small town—is a matter of first class importance out there. Open up a city daily—any city daily, whether it is Montreal, New York, London or Paris—and you will find column upon column of local sensations, which seem very small stuff from this distance. Editorial writers screech their disapproval (or praise, as the case

may be), of some local policy of paramount concern to the citizens. Generally speaking, the difference between the problems discussed in, say, the New York Times and the Bingville Bugle, is only relative. So let not the city dweller snuff at the small town paper nor the small town citizen under-rate the usefulness of the weekly sheet on which he relies for his news of the community.—Calgary Albertan.

England in the 12th Century

The development of the art of brewing as we have traced it since the days of 500 B.C. through the period of the Greeks, Romans, Spaniards, Gauls and Germans, all having adopted beverages made from barley, we now come to early English history.

William of Malmesbury informs us that in the reign of Henry II the monasteries were remarkable for the strength and purity of their ales, brewed from malt prepared by the monks with great skill and care.

Today malt beverages, BEER — ALE — STOUT are considered Health Drinks.

Where BEER has once been introduced, it has generally become the national beverage.

Honourable Charles Stewart,
Minister of the Interior.

THE SIGN OF DANGER

The accidents of the past week accentuate the need of precautions in the shape of possibly a guard rail around the Lundbreck Falls and more danger signs on the Red Trail. It is strange that the public need to be constantly warned of danger, but it is a fact nevertheless.

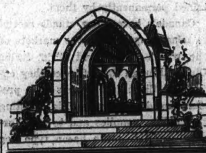

It is of inestimable value to motorists to be warned by signs of dangerous curves, and while it can readily be stated that a large percentage of drivers make even dangerous curves safely, still there are many who are beset by such assistance.

The accident at Lundbreck was clearly a case of driving much too close, there being ample room for turning, but this is on an incline where in a strong wind much danger can be encountered, especially by those on foot or by little children.

A sign of "Danger" might serve as a reminder to all to use reasonable precaution.—Pincher Creek Echo.

Upwards of 700 lives were lost when the Japanese ship Ugo Maru was destroyed by fire on May 31st. Most of the victims were Russian fisher folk.

Mr. Joseph Little has as a guest this week his brother-in-law, Mr. Ardrer, of Grimsby, Ontario.

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services for Sunday, June 9th, the

Pastor in charge—

SENIOR SCHOOL at 11 a.m.

JUNIOR SCHOOL at 2 p.m.

PUBLIC WORSHIP at 7.30 p.m.

The pastor will begin a short series of sermons on the Book of Amos. Although Amos lived almost 3000 years ago, his message is still a very modern one, dealing with many vital problems of present day life in a most illuminating way. The subject on Sunday night will be: "The Prophet's Teaching on Divine Mercy." In dealing with this subject, we shall have to consider such questions as "the social responsibility of Christians," "is God really a merciful God?" "do men seek to presume on the mercy of God?"

GUM CUSHIONED

"Inside Stuff"

THE construction of this wonderful tire is no secret. We are proud of Gum Cushions—the most effective tire-saving principle ever applied to balloon tires. Thousands of car owners are enthusiastic over the added strength and shock-resisting qualities of Gum Cushioned Tires. And the price is no higher than for ordinary tires. Go to Gum Cushion Tire Stations—they'll show you.

**THEY
RESPECT
OLDSMOBILE
MOST WHO
KNOW IT BEST**

If you want to get the facts about Oldsmobile, go to the men who drive it. They have learned the whole amazing truth about Oldsmobile. They judge, not alone by the free-flowing lines of its Fisher Bodies, its rich color harmonies or its impressive air of distinction, but also by the power and smoothness of its 62-horsepower high compression engine... by the way it meets and masters the hills... by the ease with which it rides and handles.

To Oldsmobile users, Lovejoy Shock Absorbers... resilient rubber cushioning and fabric heading to prevent metal-to-metal contact... adjustable driver's seat and steering wheel... and Oldsmobile's countless other evidence of true fine-car quality are more than mechanical features. They are EXPERIENCES... in riding comfort, in smoothness, in silence, in convenience and in absolute dependability.

INQUEST CONCLUDED

The inquest into the cause of death of Miss Gladys Knowles concluded at the courthouse on Tuesday night.

Coroner Dr. J. Olivier presided and the following constituted the jury: R. Gray (foreman), L. L. Morgan, F. R. Keer, W. Lord, F. M. Thompson and W. W. Scott.

The following witnesses were examined: H. H. Snowden, Dr. G. Blair Ross, J. H. Griffiths, Sgt. Jones, Lennie Parsons, James Koury (owner of the Ford touring car), and Geoffrey Knowles.

The jury retired at 10:10 p.m., and returned at 10:40 with the following verdict:

"We find that Gladys Knowles came to her death at about 8:30 p.m. on the 26th day of May at Lundbreck Falls, by drowning, caused by a car in which she was a passenger, driven by Geoffrey Knowles, failing to make the turn and accidentally slipping over the cliff into the Old Man river.

"We do not find any contributory negligence on the part of the driver.

"We strongly recommend that a protective fence be constructed on both sides of the river between the bridge and the falls."

VACATION SCHOOL

A vacation school will be held in the month of July in the United church school rooms. The opening and closing dates will be announced later.

The great success of the school last year has led us to plan for a bigger and better school this year.

All children turned four years of age and still in their 12th year are welcome. The teaching is Christian but not denominational.

It will help greatly in planning if parents will let us know the ages of the children they will be sending.

The estimated cost of the school is \$150.00. Relieve our minds of the financial worry by sending a subscription or letting us know the amount we may count on.—Rev. J. W. Smith, B.D., principal.

INSTITUTE PUBLIC LIBRARY

Books have been received during the week—twenty-one from Miss Mable Thompson and three from Miss Betty Greig, and the number of members is still increasing.

If you have not yet joined the Library, be sure to do so. It is impossible to secure as much reading or a great variety for a little cost any where else outside of a large city library. The cost is \$1.00 per year from the date you join. Library hours are: Tuesday, 7 to 9 p.m.; Saturday, 2 to 5.30 and 7 to 9 p.m.

A big baseball tournament will be staged at Michel-Natal on Sunday next, the main feature being a league game between Michel-Natal and Blairmore.

The Elks lodge will hold their regular meeting on Wednesday evening next instead of Tuesday, on account of the circus showing here on June 11th.

Parties anticipating opening the fishing season up the Gap on the 15th will regret to learn that considerable damage has been done to roads up that way by high waters and that the roads are practically impassable.

Eight hundred and eighty-five moose and 7757 deer were killed by hunters in New Brunswick in 1928. During the year 1895 non-residents hunting and fishing licenses were issued.

Free scholarships to C. P. R. apprentices or employees under 21 or to minor sons of employees of the company covering five years' tuition in Chemical or Civil Engineering at the Ecole Polytechnique of the University of Montreal and four years' tuition at the Montreal School for higher commercial studies are announced by circular over the signature of Grant Hall, senior vice-president of the railway. The scholarships are two in number, one at each of the institutions of learning specified, and are decided by highest standing in competitive examination.

POOL TERMINAL ELEVATOR TO BE ENLARGED

The decision to increase the capacity of the Alberta Wheat Pool Elevator No. 1, at Vancouver, by 2,750,000 bushels, giving it a total capacity of 5,250,000 bushels, is announced from the head office of the Wheat Pool in Calgary. This addition will make the pool elevator the largest terminal on the Pacific coast. The pool has two other terminals under lease at the coast, one at Vancouver and the other at Prince Rupert, and with the completion of the new building, will have a total terminal storage capacity of 8,150,000 bushels in these two ports.

Frigidaire PROVIDES BETTER Refrigeration

Style Beyond Its Price Class Price Below Comparison

Only custom-built cars can compare in beauty of design and luxury of finish with the new-style Willys-Knight. Sweep and verve of line, distinctive harmony of color and perfection of detail make it the outstanding creation of today's style specialists.

And never before has such a large and powerful Knight-engined car been offered at so low a price. The new-style Willys-Knight brings the patented, double sleeve-valve engine within easy reach of the thousands who have previously been restrained from buying by the necessarily higher cost of this superior motor.

It offers an engine free from costly carbon cleaning and valve grinding. An engine smooth, silent, powerful at the beginning, that actually increases in power and smoothness to a mileage limit impossible to determine.

Arrange today for a demonstration.

"FINGER-TIP CONTROL"

One button in center of steering wheel controls starter, lights and horn. Simple design, easy operation. No wires in steering post.

The Charter of Anglo-Saxon Liberties

When King John, of England, placed his seal upon that historic document Magna Charta, on June 15, 1215, the date went into history as that of the "greatest of all events in the political development of modern freedom."

Nearly 700 years after the signing of the Great Charter of Liberty, a movement which had its inception in the United States gave birth to the International Magna Charta Day Association, with headquarters at St. Paul, Minn. The main objective of this organization is to have June 15 of each year observed as "Magna Charta Day," or "Inter-Dependence Day," in all the English-speaking nations of the world.

Observance of the day and of the charter which is the common heritage of these English-speaking nations is urged by the Association as an expression of the recognition of the common tie that binds these nations and the common debt they owe to those responsible for the Great Charter which is the foundation of modern ideals of liberty. The Association urges observance of the day also as a means of cementing the friendship and promoting mutual understanding between these nations which, speaking the same language, and having the same ideals, are acknowledged to be the greatest forces extant for permanent world peace. Magna Charta provides that basis of unity which these nations can commemorate. Its signing was an epoch-making incident in their common history concerning which no clash of opinion is possible. One American commentator says: "The yearly observance of Magna Charta Day not only helps to keep vibrant this Anglo-Saxon International Good Will, but it serves to set out in sharp relief a wholesome example to the wide world."

The alternative title, "Inter-Dependence Day" itself is an acknowledgment that American ideals of freedom have the same fundamental basis as those of the British Nations, including Canada, and it is interesting to note that since the Association first was organized, the Day is observed annually in the United States, Canada, Newfoundland, the British Isles, Australia, New Zealand and South Africa. That is, the nations which trace their laws back to the historic document forced upon King John by the Barons of England, join in remembrance of the freedom it has conferred upon all. Says J. W. Hamilton, Founder-Secretary of the Association: "More and more it has become the Inter-Dependence Day of the English-speaking countries, as men have come to understand the Inter-racial kindness its recognition indicates."

"The thought is American-born, a gesture of deference to the acknowledged fount of freedom, and a tender of goodwill to other English-speaking lands of the earth."

The Day is not observed as a legal holiday, but as one of remembrance. Teachers in the public schools, wherever the Day is observed, emphasize the significance of Magna Charta to their pupils, and explain its significance in the lives of all residents of English-speaking countries. In many places, too, it is supplemented by setting aside the nearest Sunday to June 15, as "Magna Charta Sunday" on which by pulpit reference or Sunday School lesson the goodwill which is the central feature of the observance of the Day is given prominence. It might as well be the basis of a valuable lesson in British ideals for the cosmopolitan people of Canada—and for that reason it is interesting to note that Canada as a nation has endorsed the idea of Magna Charta Day.

Briefly stated, Magna Charta established trial by jury, restrained the Crown from using harsh and arbitrary methods of raising money, virtually placed control of taxation in the hands of the people, gave protection to minors and widows, established uniform weights and measures, limited fines and protected merchants, established the law of evidence, and, generally, assured the rights and freedom of the subject. These are the most important features of that charter which occupies so conspicuous a place in history and which established the supremacy of the law of England as the controlling power over the people.

The 39th article of the charter which is the basis of jury trial, declares "no man shall be taken, or imprisoned, or outlawed, or banished except by the lawful judgment of his peers." Another short article is significant of the desire for justice for all. In it, the King declares: "To no one will we sell, to no one will we refuse or delay, right or justice."

Marble from the North

Northern Manitoba Stone To Be Used On Office Building In Montreal

Native marble, quarried in Northern Manitoba, along the Hudson Bay Railway, may soon replace marble from Italy. "Manitvile," as the Canadian product is called, is being used extensively in the construction of the new head office building of the Sun Life Assurance Company, Montreal. Shipments were recently sent from The Pas by the Canadian National Railways. The northern marble is of fine texture, hard but not unduly so, and can take a beautiful polish and a sharp arria.

FLU Germs Breed In the Throat.

First: Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "flu" which is sweeping rapidly through the whole country. The germs of influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville. Half a teaspoonful of Nerville in water makes a most efficient gargle. The germ-killing properties of Nerville quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerville. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminatory organs, and rid the system of disease-breeding germs. This combination treatment of Nerville and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Telephones in Canada

Dominion Is Served By 2,463 Separate Systems

There are 2,463 telephone systems in Canada. Five of these are government owned, Alberta having two, and Ontario, Manitoba and Saskatchewan one each. Municipal systems number 138, of which 123 are in Ontario. There are 496 private company systems, mainly in Ontario and Quebec, and 1,552 co-operatives, of which 1,180 are in Saskatchewan. In addition, there are 169 private and 102 partnership systems. The number of telephones installed totalled 1,259,987, when a recent compilation was made, the estimated number of conversations made in one year totalled 2,108,400,000, including 31,400,000 long distance calls.

ST. VITUS DANCE

A Disease Of The Nerves Which Must Be Treated Through the Blood

St. Vitus Dance is a disease of the nerves brought on by a morbid condition of the blood. It is a common disease with children, but sometimes attacks adults. The treatment of this trouble is the successful through the blood, because rich, red blood is the life food of the nerves. In this way Dr. Williams' Pink Pills have proved beneficial in even the most severe forms of this trouble, because they enrich the blood supply, thus trying the necessary change of the nerves. In proof of the value of Dr. Williams' Pink Pills in cases of this kind we have the statement of Mrs. William Stead, Winton, Ont., who says:—"My eldest girl at the age of nine years suffered from an attack of whooping cough which left her very weak, and finally developed into a severe attack of St. Vitus Dance. She was under a doctor's care, but with no beneficial results. We also tried the necessary change of the blood, but with no better results. To make matters worse, she was taken down with measles. Again the doctor was called in, as she became so weak and her limbs so trembly that we had to take her about in a little hand wagon. I thought a change of air and scene might help her, so we sent her by boat to Port McNicoll, a distance of about a hundred miles. She seemed to improve while there, but as soon as she came home her strength was gone again. I took her to another doctor, but with no better results. I was distracted to see how helpless she was becoming, and decided to give Dr. Williams' Pink Pills a trial. I got six boxes, and they did what neither doctor nor other remedies had even started to do. They built her up completely; the St. Vitus Dance disappeared, and she has no sign of weakness and can run and play with the other girls, a thing she could not even do before. She is now about sixteen months. She walks to and from school, a distance of about a mile, which, of course, is proof of her perfect good health. I have much to praise Dr. Williams' Pink Pills for, and always recommend them in all cases of weakness."

You can get these pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Motion Pictures Of Northern Scenes
Arriving at The Pas, Captain Charles Sutton, pilot and party have completed an 8,000-mile aerial voyage which took them into the northern wilds, far beyond Port Churchill. Motion pictures of the northern scenes and of the inhabitants, the Eskimos, were taken. This was the main objective of the journey.

Attacked By Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Prize For Canada

The Chicago Tribune says: "Canada is a land of agriculture and minerals and of fish and forests. When crops in the west no longer have the heavy surpluses of the present, Canada will expand again. It is a great potentiality, and as long as rain falls and the black earth of the glaciers land where men wish to live."

Wheat Acreage

It is estimated that nearly 25,000,000 acres will be sown to wheat in Canada this year. Last year we had 24,114,846 acres sown to wheat, and the total production was \$25,571,000 bushels, an average of 22.1 bushels per acre.

Columbia Ice Fields

The melting waters from the Columbia ice-fields in Jasper National Park feed the sources of three of the largest and most historic rivers in the Canadian West—the Athabasca, the Saskatchewan, and the Columbia, which flow into three oceans.

For sunburn—apply Minard's Liniment.

Always Ready and Reliable. Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all cases of cuts, scratches, bruises and sprains. Keep a bottle handy always.

Settlers For Alberta

Quite a few new settlers from the United States have arrived in the Tilley, Alta., district during the past two weeks and several families have also come into the Brooks area to take up farms in the Rainier district. The details in all cases are being arranged through the Canadian Pacific's Department of Natural Resources.

Use Minard's for the rub down.

One advantage of the fliver over the airplane is that when the fliver's engine stops, so does the fliver.

Good Friend To Trappers

Radio Makes Life In Northern Wilds Less Lonely

The trapper's life in the wilds of northern and central British Columbia is not the lonely existence it used to be, for the radio is keeping the isolated cabin homes of these forest nomads closely in touch with the world's activities.

The radio has been a wonderful boon to the Canadian Trapper and only the lowliest of them have not equipped themselves with radio sets. Indeed, owing to the distance to be covered and the various technical difficulties to be overcome to obtain satisfactory reception, most of them have bought powerful sets. No longer does the trapper find that nights are made for sleep alone. After following the trapline all day the modern trapper spends the evenings in his cabin smoking his pipe and listening to the news of the day and the orchestra bandrons from hundreds of miles away.

Uniform Prize Ribbons

Uniformity In Color Is Agreed Upon For Fairs and Exhibitions

The Canadian National Exhibition, Toronto, has informed the Canadian Association of Exhibitions that it is willing to co-operate with the association's suggestions for uniformity of color in prize ribbon awards throughout Canada.

Henceforth at all fairs and exhibitions under the jurisdiction of the association first prize will be denoted by red, second by blue, third by white, fourth by yellow, fifth by green, and sixth by pink. Sweepstakes winners will be awarded red, white and blue combination and the grand champions red and blue.

Much confusion has resulted in past years at fairs and exhibitions by the failure to adopt a standard system of colors with regard to awards.

Sore Corns Drop Off If You USE "Putnam's"

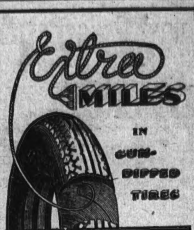

When you notice any sign of callosities on the feet or toes—that's the time to put on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes, Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

Faith and Works Inseparable

"Was an unhappy division that has been made between faith and works. Though in my intellect I may divide them, just as in the candle I know there is both light and heat, but yet put out the candle, and they are both gone; one remains not without the other. So 'tis betwixt faith and works."

Waterton Lakes Famous For Trout

Excellent fishing may be enjoyed in the National Parks of Canada, especially in the Waterton Lakes Park, Alberta, which is famous for its trout. Specimens of trout weighing as much as fifty pounds have been taken from Waterton Lakes.

GUM-DIPPING which saturates every fibre and every strand of every cord with pure rubber, serves the same purpose as that of a cobbler waxing his thread . . . prevents friction and multiplies strength.

This extra strength multiplies mileage, and increases mileage with no increase in price means lower cost per mile. That's why Firestone Tires give

HUNTER-MARTIN & CO., REGINA, SASK.

COLORFUL SCENES AT ELECTIONS IN GREAT BRITAIN

London, England.—Hundreds of thousands of Londoners kept watch the small hours of the morning as the fatal figures slipped on hundreds of lofty screens and electric signs.

In Piccadilly Circus, Trafalgar Square and other famous centers of London, the jostling crowds took on a carnival appearance. Vendors of vari-colored toy balloons elbowed men in evening clothes, while male celebrants waltzed along the pavements masquerading in women's costumes and hats.

Tops of the houses were crowded with people out to see the spectacle and apparently careless of the fact that they were not getting anywhere in the tremendous traffic blockades. Lower Regent Street, by midnight was jammed with buses fifty deep. It was estimated at least 30,000 persons had packed into Trafalgar Square where a huge stereoscopic electric bulletin was mounted.

Party partisans even decorated the huge lions at the foot of Nelson's monument with their colors, but the police cleared them away.

In night clubs, restaurants and hotels throughout the fashionable West End, thousands of London society folk danced the hours away in the early morning, while the election returns by radio broke to the music.

Premier Baldwin spent the evening more quietly at Number 10 Downing Street, his official residence, with Mrs. Baldwin and a party of friends. He listened to the return over the radio.

His Majesty Suffers Relapse

Public Is Worried Over News Regarding Condition Of King George

London, England.—Somewhat assuring news as to the condition of King George, who was learned to be again confined to bed and suffering from an attack of fever, was obtained from Windsor Castle.

The shock caused by the news that His Majesty had suffered a relapse, was two-fold. This came first from its unexpectedness, since most of his subjects thought their ruler normally convalescent, and, second, from the gravity of the King's malady. Empyema is considered a dangerous disease, particularly apt to strike a sudden mortal blow.

Very few persons knew that His Majesty had suffered a relapse. The fact was not public in London and the voting in the general elections had distracted and absorbed the attention of every one in England.

American Boat Seized

Another Fishing Trawler Is Held By Authorities At Pacific Port

Prince Rupert, B.C.—The United States salmon trawler "Mary C. Fisher" has been brought into port here by the Canadian patrol boat Graven after seizure off Tow Hill, British Island, for violation of Canadian fishing regulations.

Captain A. A. Fillon, of the salmon trawler, claims he went to Tow Hill to make repairs as allowed under international agreement. The seizure of the "Mary C. Fisher" follows a number of other seizures of U.S. salmon trawlers recently. It is claimed that the boats are using Canadian waters for fishing under the guise of entering the waters for shelter, effecting repairs, or other valid reasons.

Speeding Up Construction

Saskatoon, Sask.—Every effort will be made to have the Melfort-Aberdeen branch of the Canadian National Railway completed this fall, W. A. Kingsland, general manager of Western Lines, said when he passed through the city on his way to Roseburg. He stated grain would be hauled over the line this year even if it were necessary to use skeleton tracks for small distances.

Fire Destroys Lumber Mill

New Westminster, B.C.—Fire of unknown origin destroyed the planing mill plant of the Brunette Lumber Company at Superton, near here, with an estimated loss of \$100,000.

Estimates Approved

Ottawa.—After a somewhat contentious passage, all estimates of the department of immigration have been finally approved by the supply committee of the House of Commons.

W. N. U. 1758

Sewer Gas Explosion Causes Much Damage

One Person Believed Fatally Injured When Blast Rocks Ottawa

Ottawa.—Explosion of sewer gas in four parts of the city caused probably fatal injuries to one and hurt a number of others. At the same time destroying considerable property where the blasts were most severe.

There was panic in several sections when the booming of the explosions, accompanied by leaping pillars of flame and water, shook dwellings and rattled the windows of houses and office buildings. Women and children ran screaming from their homes.

In the streets, man-hole covers were thrown into the air a height of 50 or 60 feet. Confusion reigned. Fire alarms brought apparatus to scout fires, and patrol where there was likelihood of any outbreak.

St. Martin's Reformed Episcopal Church, built in 1876, and a landmark in the Sandy Hill district, was churned into wreckage as though it had been blasted by high explosives. Several stores in its vicinity were also destroyed, but persons in those latter buildings were not badly hurt.

Grain Buyers Organize

Will Function Along Lines Recommended By Grain Enquiry

Saskatoon, Sask.—Grain buyers of Western Canada have an organization under formation which will be known as the Grain Buyers' Service Bureau, it was announced here. It will be managed by a joint executive committee consisting of a number of active buyers in the West. The organization will function along the lines recommended by the Royal Grain Enquiry during the sittings in Saskatchewan last winter, and is aimed to raise the standard of grain buyers considerably during the next few years.

An employment bureau will be handled in connection with the organization to assist its members in securing employment. At present the organization has a large membership in Northern Saskatchewan, and by fall a 100 per cent. membership in Western Canada is expected. Further particulars of the body are under preparation and are expected to be completed within a few days.

Saskatchewan Men In Marathon Swim

Two Have Entered Names In Fourth Wrigley Event

Saskatoon, Sask.—Saskatoon will be entered in the fourth Wrigley swim marathon to be held in connection with the Toronto exhibition, on August 28. Saskatoon's entry in this world-famous event will be Jack Smyth, of 211 Sixth Street, who has already forwarded his entry to the officials at Toronto. Prince Albert will be represented in the same event by H. Houghton. Smyth and Houghton will train at Prince Albert National Park. They intend establishing training quarters there at once.

Want Chair Of Music

Saskatoon.—A discussion regarding the desirability of a chair of music at the various provincial universities, was an outstanding item at the Inter-Provincial Musical Festival Conference, held here. The conference, which was attended by officers and delegates from the associations of the four western provinces, expressed the hope that the authorities concerned would take early action.

Will Remain In Force

Victoria.—British Columbia's tax on non-royalty paying exported logs, declared ultra vires by Chief Justice Aulay Morrison, of the Supreme Court, will remain in force until the judgment has been appealed by the provincial government as a result of arrangements reached between the province and the Dominion government, it was announced.

Board Of Conciliation

Ottawa.—A board of conciliation under the Industrial Disputes Investigation Act has been established by Hon. Peter Hoona, minister of labor, to deal with a dispute between the Canadian National Railway and its firemen and engineers, members of the Brotherhood of Locomotive Firemen and Engineers.

To Conduct Prosecution

Prince Rupert, B.C.—E. F. Jones, of this city, has received instructions from Ottawa to conduct in Vancouver the prosecution of the four United States salmon trawlers seized recently at George Harbor.

Working For World Peace

Saskatchewan Will Hold Provincial Conference On June 28, At Saskatoon

Saskatoon.—With a dominion peace conference as objective, provincial conferences are being organized, Saskatchewan joining in the movement by arranging a gathering at the University of Saskatchewan, on June 28. This was decided at a meeting called by Mrs. H. Johnston, president of the United Farm Women of Saskatchewan, and attended by representatives from all organizations in the province working for world peace. The date was chosen to accommodate the large number who will be in Saskatoon for rural women's conventions covering not only the province but the whole of the Dominion, represented in the Women's Institutes.

AGREEMENT IS REACHED ON REPARATIONS

Paris.—The German experts and their creditors came to an agreement on revised reparation annuities as proposed by Chairman Owen D. Young.

These annuities average 2,050,000 gold marks (about \$492,000,000) for thirty-seven years; 1,700,000,000 marks (\$408,000,000) for twenty-five years, and 900,000,000 marks (\$210,000,000) for the final year.

Under the agreement as concluded, these annuities will run from September next, instead of from April 1 last, as originally calculated. The dates plan of payments will meanwhile continue in force.

The situation was explained by Thos. W. Lamont, United States representative, as follows:

"Both creditor and German experts have heretofore declared themselves willing to accept the annuity figure of 2,500,000,000 marks as suggested by the chairman, although a difference existed on the question of interpretation.

"This difference has now been removed and a common basis for interpretation acceptable to both the creditor and to Germany has been found, subject, however, to agreement on the outstanding conditions which still remain for discussion and settlement."

It was further explained this agreement was no victory, as both Germans and creditors gave way to make it possible.

The general opinion of the experts was that a most important step had been taken toward final elimination of the Great War. There was no disposition to cry victory because there remained a number of knotty points among German conditions and allied reservations, any one of which it not satisfactorily disposed of might make final agreement impossible.

WILL PILOT GIANT DIRIGIBLE

Major G. H. Scott, chosen by the British government to pilot the great R-100 on its maiden voyage to Canada.

A Reciprocal Visit

Australians Invite Canadian Boys To Make Return Tour

Victoria.—We are leaving Canada with the hope that a reciprocal visit to Australia will be arranged for Canadian boys," Major John J. Simons, leader of the Young Australia League, stated prior to embarking on the liner "Aorangi" homeward bound.

"We have had a wonderful tour, and its success has greatly exceeded our expectations," he added.

The aim of the League in fostering these tours, Major Simons said, was to create better understanding between the English-speaking peoples of the world, and in this, he thought, the League had been in a large measure successful.

Salmon Treaty Approved

Committee Evenly Divided and Chairman Voted In Favor

Ottawa.—On the casting vote of the chairman, William Duff, Liberal, Antigish-Guyaboro, the marine and fisheries committee of the House of Commons approved the Canada-United States sockeye salmon fisheries treaty. The convention was signed at Washington on March 27 last.

When the division was called, ten members of the committee voted against the pact and ten in favor, with the vote a tie. Mr. Duff, as chairman, then voted for the treaty.

Casualty List Heavy

Manila.—The death toll in the typhoon in Southern Leyte province was reported at 112 as communication with that section was re-established. First reports of the storm received here gave the number of deaths as ten. Some of the towns in the typhoon area still were isolated when the casualty list was completed.

The Bull Dog Breed

Feet squarely planted on the deck of a Canada-bound liner, this young Britisher roughly shrugs a left shoulder at the photographer. Member of an agricultural family coming aboard under the auspices of the Department of Colonization and Development, Canadian Pacific Railway, he looks forward to a romping, healthy life in Canada—thanks to the Ashlee scheme.

Amended Bill Is Passed By Committee

Would Make Divorce Much Easier For Deserted Wives

Ottawa.—An amendment to the bill respecting the domicile of married women, although opposed by a large section of the house, passed when Parliament went into committee to consider the bill. The amendment makes it possible for a woman, deserted by her husband and left living alone for two years, to establish her domicile in any province of Canada where a divorce court exists for the purpose of obtaining divorce.

The bill, as amended, passed the committee stage and now stands for third reading. The amendment was passed by a vote of 36 to 28.

During the debate, Hon. Ernest Lapointe, minister of justice, declared that conditions in Canada would be worse than in Reno if the bill as amended became law. In Reno, a person desiring to obtain a divorce was required to wait three months before taking proceedings. Under the bill before the house, such persons could go to a province where a divorce court existed and begin proceedings immediately.

Hon. B. Bennett, Conservative leader, pointed out that a woman wishing to obtain a divorce must establish her domicile to the satisfaction of the court.

Slaughter Of Tribesmen

2,000 Arabs Reported To Have Been Slain In Tribal Fight

London.—A Jerusalem dispatch to the Express says desert runners brought to Beyrouth word that 2,000 Arabs were slain at Elsarar, Nejd, in a battle between Ajman and Jela-wah tribes.

The fight was attributed to a breach of desert hospitality.

The sheik of Ajman visited and was entertained by the sheik of Jela-wah, but no sooner had he left the tent of his host than he was attacked.

The Ajman tribesmen promptly retaliated and in the following conflicts both the chiefs and a thousand tribesmen on each side were reported to have been killed.

Capital Invested In Canada

Canadians Own Over Half Of Securities In Dominion

Ottawa.—Canadians own from 55 per cent. to 65 per cent. of the securities of all enterprises located on Canadian soil. British investment in Canada at the beginning of 1928 was two-thirds that of United States investments in this country, or \$2,209,517,000, as compared with \$3,286,786,000.

The total British and foreign investment in Canada at the time noted amounted to \$5,542,045,000, the balance of \$2,457,400,000 coming from alien countries other than the United States.

APPEAL IN TAX CASE IS WON BY WHEAT POOL

Ottawa.—Judgment was given by the exchequer court in favor of the Saskatchewan Wheat Producers, Limited, in their appeal from the assessments in the years 1925 and 1926, by the minister of national revenue, at \$154,143 and \$302,489 respectively.

These amounts represented deductions set aside for elevator and commercial reserves, and for operating expenses.

Mr. Justice Audette held that the deductions were merely temporary loans made by the farmers in the pool and were not gains or profits within the meaning of the act.

The judgment says in part: "The deductions are so much less of the price, the proceeds of the farmer's grain, which he leaves, by agreement, in the hands of such associations for the purposes of handling his grain to his best advantage.

"Under all circumstances of the case, I find that the deductions in question are but temporary loans and advances made by the farmer out of the price of his grain, to the pool capital for carrying on and acquiring elevators — the value thereof being credited to him as his own, having been his own all through under the true meaning of the provincial act and the contract made thereunder, and that the association acting in such fiduciary capacity for the grain growers, accounts for every cent it receives, and retains nothing that amounts to gain or profit."

AMENDMENTS TO ELECTION ACT ARE EXPLAINED

Ottawa.—Hon. Lucien Cannon, solicitor-general of Canada, explained to the House of Commons the two principles involved in the amendments recommended by the special standing committee which, during the present session, has investigated the Dominion Elections Act. These amendments were before the House for approval.

The first radical change recommended by the committee was for the appointment of returning officers by the chief electoral officer for the Dominion. In the past returning officers all across Canada had been appointed by the governor-general-in-council at the recommendation of the secretary of state.

The second principle requiring change, according to the recommendations, was in the compilation of federal voters' lists from provincial lists. The recommendations contained in the amendment urged that in urban centers enumerators be appointed to compile permanent federal lists. This practice will save much expense and trouble and will enable inaccuracies to be eradicated, the committee agreed, Mr. Cannon pointed out.

It was the hope of the committee, Mr. Cannon said, that the amendments might be passed during this present session since they would require some time to be put to practical use. The bill was given second reading forthwith and considered in detail in committee.

"Mr. Cannon pointed out that the amendments provided for in the bill would apply at the next general election. It was the opinion of the committee that they should not apply at any by-election which might be held before the next general election."

Many Press Delegates Going To Conference

Canada Is Sending Twenty To Eng-

land Next Year
Montreal.—J. H. Woods, managing editor of the Calgary Herald, and chairman of the Canadian Division of the British Empire Press Union, accompanied by his wife, sailed from this port en route to London, England, where he will make arrangements for the Canadian contingent of press delegates to the Imperial Press Conference next year.

"Canada will be sending 20 delegates to represent the 60 members of the Union in Canada," said Mr. Woods. "This is the largest representation of any part of the Empire with the exception of the British Isles."

To Cross Continent In Buggy

Stockbridge, Mass.—Russell Beckwith has no use for automobiles, so he will set out on a trip with a horse and buggy that will eventually take him to British Columbia. Mr. Beckwith has leased his farm here and leaves to visit a brother in Connecticut. He also will go to Pennsylvania for a visit before heading for British Columbia.

Five Italian Flyers Killed

Rome.—The crew of five of a military bombing plane were killed when it crashed into Mount Orsini near Corniglio, while on a night flight. The dead were two lieutenants, two under-officers, and a soldier mechanic. A sudden violent storm had come up while they were flying over the Apennine mountains.

Rebels Kill Ambassador

Constantinople.—Authoritative information has reached Ankara from Afghanistan, stating that Afghan rebels captured and killed Guliam Delian Bey, Afghan ambassador to Turkey who was recalled by former King Amanullah to aid in the fight against the rebels. The report said that Guliam was tortured to death.

Unemployed In Britain

London.—The number of unemployed in Great Britain on May 13 totalled 1,104,700 persons, a decrease of 28,000 under the previous week. It was officially announced here. The number was also 13,660 below the unemployment figures of May 13 1928.

Y.W.C.A. Convention

Toronto, May eastern delegates will attend the National Young Women's Christian Association convention at Banff, Alta., June 4 to 10. Many delegates will go to Montreal and Toronto.

Local and General ItemsFamous last words: "Time is up,
boys; time is up!" By George.Miss Nina Passmore is down from
Granbrook on a visit to her parents
and sister.We regret to learn that Rev. A. D.
Currie is again confined to his home
through illness.Owing to the high water, sawing
operations at McLaren's mill were
suspended for Monday.Born, to Mr. and Mrs. E. Bulman,
a son, at Mrs. Parr's nursing home.
—Clareholm Press.We have so many socks that need
mending that we have about decided
we should form a darn or sewcation.P. Ubertino has a new Naah sedan,
taking delivery from Roy Smith, the
Nash agent for the district.—Bassano
Mail.Mr. and Mrs. W. Smith, of Hill-
crest, were guests Sunday of Mr. and
Mrs. E. Whiteside. — Strathmore
Standard.J. D. Matheson, K.C., of Macleod,
was a visitor here on official business
on Tuesday. He was accompanied by
Mrs. Matheson.Lovers will have a much bigger op-
portunity after July 1st, for the law
will then prohibit more than two per-
sons in an auto seat.A little kid yesterday asked what
was the difference between A. J.
Walker and a jay walker. Well, they
both sound alike.R. B. Bennett is opposed to Sun-
day golf because he believes a man's
children will adopt the same idle hab-
its as their daddy. He should worry!Rev. Canon Merrick, formerly of
Macleod, but now of St. Luke's
church, Red Deer, will leave Red Deer
shortly to take up the work of the
Anglican church at Clareholm.Since a guy at Hillcrest claimed to
have been subjected to public ridicule
because a name similar to
his appeared in this terrible rag, Val
Rinaldi, our local count, pool room
keeper and specimen vegetarian and
bachelor, feels he too should be ridi-
culous.A Scotchman entered the Cosmo-
politan hotel the other day. As most
of his friends were named Jack, he
hesitated to address the few there at
the time, hoping that the others
would arrive shortly, so he could say
"Hello, Jack!" to the whole bunch at
one breath.At a largely attended meeting of
Turtle Mountain Lodge, Knights of
Pythias, held in the Castle hall at
Hillcrest on Tuesday night, a class of
ten candidates were instructed in the
mysteries of the Rank of Esquire.
Visiting brethren were present from
Lethbridge, Coleman and Blairmore.
Following the meeting, refreshments
were served, followed by speeches,
vocal and instrumental music, etc.A number of young friends gather-
ed at the home of Mr. and Mrs. Wil-
liam Patterson on Saturday evening
last, the occasion being the seven-
teenth birthday of their son James.The programme of the evening con-
sisted of whist and other parlor
games, the winners at whist being:
girls' first, Miss Rumsy; second,
Miss L. Carnahan. Boys' first, Mr.
E. Hewitt; second, Mr. W. Tilberg.
Tables were set and twenty-two boys
and girls sat to a tasty supper, after
which James became the recipient of
a beautiful fountain pen.The American hotel at Macleod has
been re-opened by the new owners,
Messrs. Swinerton and Grier.Monday, June 3rd, the King's birth-
day, was observed as a holiday by
the banks and government offices.The Bellevue school board has set
the mill rate for 1929 at 30 mills, be-
ing an increase over last year.Mr. and Mrs. Max Belecky were
motor visitors from Fernie to friends
in Blairmore and Hillcrest on Mon-
day.Dr. and Mrs. O. Lillie, of Creston,
left here by Tuesday night's train
for the old home in Ontario, where
they will visit for a while. They will
return west by motor.The very latest news from the au-
tomobile world is that Count Valen-
tino Rinaldi has purchased a Chevrol-
et touring car of the 1939 variety.
Now watch the smoke!The officers of the Elks' lodge and
members of the patrol are asked to
attend an informal meeting at the
hall tomorrow (Friday) night at 7.30,
to consider the possibility of taking
part in the annual competition for
the Leyden shield.The regular monthly meeting of
Crows' Nest Chapter, I.O.E.E., will
be held at the home of Mrs. J. Chaput
on Monday next, June 10th, at 7.30
p.m. All members are kindly re-
quested to attend as this will be the
last meeting before discontinuing
meetings for the summer months.Recently an attempt was made to
set fire to the public school building
at Innisfail. The fire escape and back
steps were saturated with gasoline.
A reward of \$100 is offered for in-
formation that will lead to the con-
viction of the guilty person or per-
sons.Fred Lees, who for a few weeks has
been in charge of the office end at
Coleman Garage, left on Sunday for
Saunders Creek to manage a hotel
owned by a brother-in-law, Pete As-
chinger, who was injured in a car ac-
cident last week. He expects to re-
main there.—Coleman Journal.**For Entire Week—Fresh
